AIVX Labs × GoHighLevel affiliate kit

Updated 2026-11-02 · aivxlabs.com/affiliates/gohighlevel

GoHighLevel runs the agency. AIVX does the work. Every GoHighLevel agency you know is already paying for a CRM, email and automations, and still doing the delivery by hand: audits, proposals, prospect lists, ad copy, pages. AIVX Labs connects to their sub-account in one click and drops every piece of that work on the right contact as a note and a tag. You send them to the $17 lifetime offer and you earn half of that, half of every upsell they take on the way in, and half of every membership plan payment after that.

Why it fits GoHighLevel agencies

- They already live in GoHighLevel. The connect is one click from the AIVX Account page and the result lands where they already look: the contact.
- They sell services, so every AIVX tool is a service they can resell: website audits, proposals, prospect lists, ad copy, landing pages, video scripts, reports.
- Their automations get new triggers for free: aivx-prospect, aivx-sent, aivx-proposal-accepted, aivx-paid, aivx-site-audit-done.
- The entry price is $17 once. Nobody has to think about it. You earn on that first $17, on the upsells, and on the plan they add once they are using it.

Payout: 50% for 12 months, then 35% for life

You earn 50% of what someone you referred pays: the $17 lifetime offer, every upsell on that page, and every membership plan payment, for their first 12 months. After 12 months it drops to 35% and stays there as long as they keep paying.

Plans today: Access $9.95 a month, Operator $49 a month, Agency $99 a month. Annual plans count too, at the same rate on the full charge. Buyers who add a plan on the $17 offer page get a permanent discount (Access $7.95, Operator $39, Agency $79) and you earn 50% of the discounted price.

Example: one agency on the Agency plan at $99 a month pays you $49.50 a month, $594 in the first year, then $34.65 a month for life.

What does not pay a commission: the free plan and credit-pack top-ups bought by existing members.

Commissions clear after a 30-day hold (refunds and chargebacks), and pay out once your available balance reaches $50. You earn on people you refer directly, not on their referrals.

How to start

1. Get your link. Create a free AIVX Labs account, open Affiliate Center in the left menu, copy your link. Add ?ref=YOURCODE to any AIVX page and the visitor is yours for 60 days.

2. Point it at the GoHighLevel page or the offer. aivxlabs.com/gohighlevel-agencies explains the integration; aivxlabs.com/special is the $17 lifetime offer. Both keep your ref code.

3. Send the swipe copy below. Three emails, five posts and a 60-second video script. Edit the voice to yours; keep the facts.

4. Watch the Affiliate page. Clicks, sign-ups, paid members and pending versus available commission update as they happen.

Swipe emails

Replace {{LINK}} with your affiliate link and {{NAME}} with your name. Edit the voice; keep the facts.

Subject: Your GoHighLevel can't write the proposal

```
Quick one.

GoHighLevel is great at the pipeline. It is useless at the thing that fills the pipeline: the audit, the proposal, the prospect list, the ad copy, the page. You still do those by hand, or you pay someone.

AIVX Labs is the other half. 79+ AI tools and templates, and it connects to your GoHighLevel sub-account in one click. Run a website audit in AIVX and the link lands on the contact with the tag aivx-sent. Send a proposal, the contact gets aivx-proposal-sent, and aivx-proposal-accepted when they click Accept. Your workflows take it from there.

Lifetime access is $17 once right now:
{{LINK}}

Connect it from the Account page after you log in. Ten seconds.

{{NAME}}
```

Subject: One webhook step, every new lead gets audited

```
Here is the workflow I'd build first.

New lead fills a form in GoHighLevel. Your workflow hits one Webhook step pointed at AIVX Labs. Two minutes later the contact has a note: "Website audit for {{company}} is ready" with a link, and the tag aivx-site-audit-done. Your rep opens the link, sends it, books the call.

Nobody at the agency opened a tool. The audit is real, written in plain words, and the lead's name is on it.

AIVX Labs is $17 once for lifetime access, and the GoHighLevel connection is free on every plan:
{{LINK}}

The step-by-step is on aivxlabs.com/integrations/gohighlevel once you're in.

{{NAME}}
```

Subject: Saved a prospect list. It was already in my CRM.

Small thing that changed my week.

In AIVX Labs I searched "plumbers, Tampa", ticked twelve, clicked Save. Switched to GoHighLevel: twelve new contacts, each tagged aivx-prospect and aivx-plumbing. My outreach workflow was already running on them.

That is the whole idea of the AIVX + GoHighLevel connection. You keep working in the CRM you already pay for; AIVX does the work and files it on the contact.

$17 once, lifetime access, 79+ AI tools and templates:

Social posts

GoHighLevel runs my agency. AIVX Labs does the work. Audit, proposal, prospect list, ad copy, all of it lands on the contact with a tag my workflows use. One-click connect, $17 once for lifetime access. {{LINK}}

Built a workflow today: new lead ’ Webhook step ’ two minutes later the contact has a full website audit and the tag aivx-site-audit-done. Nobody opened a tool. AIVX Labs + GoHighLevel. {{LINK}}

If you run on GoHighLevel and still write proposals by hand, this is the missing half. AIVX Labs writes it, sends it, and tags the contact aivx-proposal-accepted when they say yes. {{LINK}}

Saved 12 prospects in AIVX Labs. They were in my GoHighLevel sub-account before I switched tabs, tagged and ready for the outreach workflow. $17 once. {{LINK}}

The GoHighLevel connection in AIVX Labs costs nothing on any plan. The $17 lifetime access gets you 79+ AI tools and templates to feed it. Agency owners, this one is for you. {{LINK}}

Video script (60 seconds, for your own camera or AI twin)

[0-5s, to camera] If your agency runs on GoHighLevel, you already have the pipeline. What you don't have is the work.

[5-15s] The audit. The proposal. The prospect list. The ad copy. The landing page. GoHighLevel can't write any of that, so you do, or you pay someone.

[15-30s, screen: AIVX Account page, Connect GoHighLevel] AIVX Labs is the other half. 79+ AI tools and templates, and it connects to your sub-account in one click. Watch: Account page, Connect GoHighLevel, pick the sub-account, done.

[30-45s, screen: contact in GoHighLevel with aivx tags] Now every audit, proposal and saved prospect lands on the contact as a note with a link and a tag. aivx-sent. aivx-proposal-accepted. aivx-prospect. Your workflows react to those like any other tag.

[45-55s] And one Webhook step in your lead workflow gets every new lead a full website audit two minutes after they fill the form.

[55-60s, to camera] Lifetime access is seventeen dollars once. Link below. Connect it from your Account page after you log in.

Questions affiliates ask

Do I earn on the $17?

No. The $17 lifetime access, credit packs and other one-time purchases pay no commission. You earn 50% of membership plan payments (Access, Operator, Agency) from the people you referred, for 12 months, then 35% for life.

Does my link survive the $17 checkout?

Yes. The ref code is stored in a cookie for 60 days and written to the buyer's account when they pay on /special, so a plan added at checkout or any time later pays you.

Can I promote the GoHighLevel page instead of the offer page?

Yes. aivxlabs.com/gohighlevel-agencies?ref=YOURCODE explains the integration and sends people to the $17 offer with your code intact.

Is there a free plan I can send people to?

Yes. Anyone can sign up free with no card. The free plan pays no commission; you earn when they add a membership plan.

What may I say in my promotion?

What the product does: the tools, the templates, the GoHighLevel connection, the tags, the Webhook step, and the price. Do not promise income, results or timelines, and do not call AIVX a GoHighLevel replacement. It sits beside GoHighLevel.

When and how am I paid?

Commissions sit pending for 30 days, then become available. Once your available balance reaches $50 it is paid out. The Affiliate page shows pending, available and paid.

The rules in one line

Say what the product does and what it costs. No income claims, no results promised, no timelines, and never call AIVX Labs a GoHighLevel replacement: it sits beside GoHighLevel.
